

# Water Heaters & Heat Pumps Energy Efficiency Credits

## System or Appliance

### Electric Water Heater

Basic Energy Star Unit, Residential (Minimum 40 gal. capacity)

\$30 per unit (Tri-State G & T)  
\$20 per unit additional incentive for lifetime tank warranty

### Rheem - Marathon Water Heaters-40 and 50 gal.

\*Tank guaranteed to never leak.

\*Parts warranty-six years from date of mfg. or 5 yrs. from date of installation, whichever is greater

**Electric to Electric** (\$150 per unit from K.C.)

\$50 per unit (Tri-State G & T)

**Gas to Electric** (\$250 per unit from K.C. )

\$50 per unit (Tri-State G & T)

### Super Efficient Unit (Geo Thermal)

\$100 per unit for primary heating by direct exchange ground source or heat pump waste heat  
\$25 per unit extra for lifetime tank warranty

### Air Source Heat Pump Water Heater

(Minimum 30 gal capacity, Energy Star residential unit or any commercial installation)

\$350 per unit Air Source Heat Pump Water Heater

### Electric Heat Pump

Central Air Source

Minimum 1 ton (12,000 BTUH)

\$125 per ton with electric resistance backup

\$150 per ton for central air source without electric resistance backup

\$150 per unit additional incentive for Energy Star units over 16 SEER

\$100 per unit additional incentive for Energy Star units from 15 to 16 SEER

\$100 per unit additional incentive for central air source with integrated controlled ETS backup in lieu of a separate ETS incentive

\$85 per unit for terminal units (through-the-wall mounted heat pumps)

### Electric Heat Pump

Central Ground Source

Minimum 1 ton (12,000 Btuh)

\$200 per ton

\$150 per unit additional incentive for Energy Star units over 3 Tons and larger

\$100 per unit additional incentive for Energy Star units from 1 to less than 3 tons
